

THESE BUSINESSES HAVE CLASS!

The Kansas City Star and E-Star in Education thank our Business Partners in Education for making the grade in 2008-2009.

Thanks to their generosity, students throughout Kansas and Missouri have daily access to the e-Edition of *The Star* and online newspaper programs from any computer anywhere at any time. Students using newspapers in the classroom perform better on tests and demonstrate healthy reading habits as adults. This living textbook stimulates creativity and engages learning, and engaged students grow up to be productive employees, informed consumers and active citizens.

Visit www.kcstarsie.com to learn how you can participate in this non-profit literacy program.
